AdaptivEdge Welcomes Microsoft Systems Engineer, Raul R. Perez II

Alameda, CA—October 1, 2015 —Today, AdaptivEdge announced that Raul R. Perez II, will now take the role of Microsoft Systems Engineer for the company. Perez is responsible for the assessment of customer environments along with the planning and execution of proposed solutions. He primarily focuses on the Microsoft stack including Windows Server, Active Directory, Exchange, and Office 365.

His past initiatives include data center migrations, PCI compliance auditing and remediation and Exchange migrations. Raul is well versed in virtualization and has experience with both VMware and Hyper-V, including migrations and co-existence of both virtualization platforms. He has deep experience with Windows Server and all of the roles available within the 2012 R2 stack including Active Directory. In addition to his experience on the infrastructure and virtualization side, Raul has consistently proven his ability to pick up new technologies extremely quickly and demonstrate proficiency at a rapid pace.

Raul graduated with honors from Cantwell-Sacred Heart College Preparatory. Additionally, he attended California State University, Los Angeles where he studied Computer Information Systems. He is certified in various Microsoft technologies: MCSA Server 2012 and MCSE Messaging. AdaptivEdge welcomes Raul to our team!

About AdaptivEdge:

Based out of Oakland, CA, AdaptivEdge was founded in June of 2013 by Steve Soper and Michael Oda. As a Microsoft Gold Partner, AdaptivEdge helps customers evaluate various

product options from a financial perspective as well as from a business and technical perspective. There are many different ways to license Microsoft products and the choice of licensing schemes impacts the features and functionality that are available. AdaptivEdge can help customers choose the right options to meet their needs and budget.

With over 20+ consultants and Microsoft subject-matter experts AdaptivEdge has developed a methodology for helping customers identify their requirements via in-depth questionnaires and collaborative workshops. Once the requirements are defined, the AdaptivEdge team utilizes a best practices approach to help the customer select the right Microsoft products and architect a solution that delivers maximum ROI.
